Management and Science University, Shah Alam, 40100, Selangor, Malaysia.

S/Collaboration letter

Dear Mr. Saeid Mezail Mawazi:

We would like to express our willingness to serve as a collaborator on your project entitled “Halal Lipsticks, Halal & Natural Formulation”. In particular, we may look into the development of more colors extracted from different types of vegetables. Based on your primary research, you used beetroot mixed with tomato to produce red color, which is the only one color you produced; therefore, our collaboration will be based on production of more different degrees of red and pink colors and test it *in vitro* and *in vivo*.

This collaboration is part of the official duties in the research and development department at the USAPharmacosmetic, we will provide scientific input (and mentoring) and research expenses will be determined in the next meeting. Further, in keeping with the mission of USAPharmacosmetic to promote and facilitate cosmeceutical research and the dissemination of new knowledge, we would supply requested research materials and technical expertise not only to you, but also to other interested and qualified parties for research purposes involved in this agreement. Approval for this collaboration has been granted by Dr. Salwan Almansury, at USAPharmacosmetic.

We look forward to working with you on this collaboration.

Sincerely,

Salwan Almansury

Subject: Collaboration: Development of Halal and herbal based lipstick prototypes.

You don't often get email from nbinothman@taibahu.edu.sa. [Learn why this is important](#)

As-Salamu Alaikum Wr Wb,

Mr Saied,

Thanks for inviting me to collaborate with your team in the development of halal and herbal based lipstick prototypes. I wish this collaboration work will be the successful one.

Regards,
